

## INTERMEDIO K

### 1. CHARACTERISTICS AND FIELDS OF USE

Adhesion promoter and water based primer with high concentration, used as a transparent primer, suitable to reduce the absorption of the substrate, in MICROMARMO cycles, before applying the final protective MATT PROTECTOR 2K and GLOSSY PROTECTOR 2K.

INTEMEDIO K also guarantees, in environments subject to frequent contact with water (bathrooms, shower interiors), a better impermeability, perfectly closing the pores of the MICROMARMO, before applying the final protective MATT PROTECTOR 2K and GLOSSY PROTECTOR 2K.

Excellent connection base between MICROMARMO and MICROMARMO B10, which improves its workability and open times.

### 2.COMPOSITION

Acrylic terpolymers in aqueous emulsion, special surfactants, other additives.

### 3. APPLICATION METHOD

Apply INTEMEDIO K with a brush, roller or spray on the surface to be standardized, without any dilution.

Allow the surface to dry for 24 hours before applying MATT PROTECTOR 2K and GLOSSY PROTECTOR 2K, or MICROMARMO.

### 4. TECHNICAL DATA

**SPECIFIC GRAVITY:** 1,020 Kg./Lt. +/- 5%

**VISCOSITY:** 25" CUP ford n.4

**VOLUME OF SOLIDS:** 19,5% +/- 1%

**YELD:** 6-8 m<sup>2</sup>/Lt. (depending on the absorption)

**DILUIZIONE:** pronto all'uso.

**PACKAGING:** plastic can of Lt, 15, Lt. 2,5

**DRYING TIME:** to the touch 30' , deep 24h a 20°C

**RE-COATING:** 24 h

**APPLICAZIONE:** pennello, rullo, spruzzo

**STORAGE:** 36 months in unopened packages

protected from temperature changes

**HS-CODE :** 32091000

### 5. ITEM OF SPECIFICATION

Standardization absorption and priming of SPIVER S.r.l. MICROMARMO type mineral surfaces, ready to be completed with a double layer of MATT PROTECTOR 2K or GLOSSY PROTECTOR 2K polyurethane protective coating from SPIVER S.r.l ..

Price including material and installation, per m<sup>2</sup> €
